

## Faculty Evaluations

Published on Masters Programs Office (<https://networth.rhsmith.umd.edu>)

---

Course evaluations are available for student review at [CourseEvalUM](#). Evaluations are only available if 70% or more of students enrolled in the course completed the evaluation. Student evaluations are available to increase transparency and improve the program. Decisions related to faculty hiring and merit pay are based partly on the course evaluation results. Course evaluation results have been used to determine whether an instructor should be reassigned or not rehired.

While the administration does receive the evaluation ratings, they do not receive the individual comments written by the students. As a result, students who have written feedback that they would like to provide should email the feedback to the Assistant Dean.
