Future Elective Schedules

For course pre-requisites and section restrictions, please visit [Testudo's](#) Schedule of Classes for further detail.

Please note that enrollment in blended courses will be limited to the First Year, Blended DC Weekend MBA students for the first ten days of registration.

Please note if there are certain electives you strongly desire to take during the program, we recommend you register for those courses early in your elective phase when you see them offered. There is risk associated with waiting until your final semester(s) to take courses you deem essential to your program.
