@smithanalytics

Lunch & Learn Series
The Lunch & Learn Series connects students with industry experts, offers hands-on advice, career information for feedback, teaches core and world analytics applications.

Datathon
The Datathon brings students, industry, and faculty, for a focused challenge. Students/teams work on data problem-solving, data analysis, business strategy, teamwork, and presentation skills to address a real-world business problem for their assigned industry partner. Students are also able network with industry professionals.

Deloitte Experiential Learning
SAC provides many opportunities based on experiential activities to help students use how their analytical knowledge can translate into successful working insights.

The world has an exciting huge challenge for a data analyst and we need you to help us solve it!
This is one of the best ways to gain experience in a program of interest. Don't let this opportunity pass you by!
HAC will reward students that show their
